

Customer Preparations for Power Spray Service

Bain Pest Control will be performing a power spray application to the exterior of your unit for the control of ants and other crawling and flying insects. We could like to ask for your cooperation to help with the success of this application.

- Please remove any sensitive items, such as grills, toys, etc. from the perimeter of the building. Any decks with such items present on the day of treatment will be bypassed for treatment.
- If items cannot be removed from your deck, you may cover them with a tarp.
- Please have all your windows closed on the day of treatment.
- Cover all edible gardens in vicinity of the treatment area.
- Make sure all pets are kept indoors.
